学校 | the school

GenkiJACS is one of the first Japanese schools in Japan to teach communicative Japanese for everyday life, rather than academic Japanese. Everything in our schools is organized around this central philosophy.

That's why lessons focus not just on what to say, but on why, how and when to say it. We have multiple programs and events to help our students make friends with Japanese people. Our class size is by far the smallest of any accredited Japanese school in Japan. We call this "the GenkiJACS difference". It's a big part of the reason why we were the first Japanese school to be voted Star World Language School, the highest award available to a language school, and why students come back to study with us again and again. We believe in treating every student as a member of our family. We have helped students to arrange birthday parties, ship medicine or rent a studio for music practice. We adapt our lessons to the needs of each student, while keeping them practical and exciting, to give them not just the skills, but also the confidence to use these skills. Classes involve real-world situations, guest instructors, field trips and more. For all these reasons, we are regularly ranked highest amongst all Japanese schools. If you only have one chance to study Japanese, make sure you do it right: learn it with GenkiJACS!

GENKIJACS IS A REVOLUTIONARY JAPANESE SCHOOL

Evan Kirby
Director

"We created GenkiJACS to be a place where people can enjoy learning the wonderful Japanese language in a relaxed and friendly environment, while also experiencing the absolute best of Japanese culture. We are incredibly proud of what we've accomplished, and the fact that we are the only Japanese school ever to be voted one of the top language schools in the world multiple times is a testament to how much people love our student-centered classes. We can't wait to help you achieve your dreams in Japan!

Small class size

With an average of five students per class and a maximum of nine, everyone is involved in the class.

Exciting courses

Flexible schedules

Most courses start every Monday all year round. You can study for as long as you want, from one week to a year or more!

Great teachers

We hire only the best native Japanese staff and perform regular training.

All classes are held on a rolling start basis meaning that when you arrive at GenkiJACS, you are placed into the ongoing class that is most appropriate for you. Your placement is decided based on an on-line test, followed by a confirmation test and an interview by a Japanese teacher on your first day at the school. If your Japanese ability is slightly below the level of your class, we will provide free materials and extra homework to raise you to the appropriate level. As your study continues, you move up automatically through the class levels. For as long as you study with us, when you complete the material for one level, you will advance to the next level. Because we offer so many different class levels at any time, we can place you into a class that matches YOUR current ability level.

教師陣 | teachers

Our teachers and staff: The heart and brain of our schools.

All of our teachers are graduates of a rigorous 420-hour Japanese teacher training course: the standard qualification for professional Japanese language school teachers. It is equivalent to a university minor, and the result is a very high standard of teaching. Most teachers are bilingual, speaking English as well as Japanese of course. While the lessons are entirely in Japanese from day one, it still means you will be able to ask questions in English if needed. You'll spend more time with the teachers than almost anyone else you meet in Japan, so we only hire the best!

"Learning has no end and that is why it is fun, and that is why it is difficult. Let us be the friends and family who will share the fun times and be there when the going gets tough.

Tomoe Yoshiguchi
HEAD TEACHER

"One click of the mouse and you can study languages whenever, wherever. But to truly know the language you need to feel it, need people around. We offer you a chance to learn, find and live the spirit of Japan.

INTERNSHIPS

Our partnership with work placement organizations in Tokyo and Fukuoka means that you can have an opportunity to find an internship position for up to three months in a field of your choosing. Who knows, you might even be hired at the end of it! Our partners provide resume and interview support, business skill classes and assistance throughout your internship.

HELP OUTSIDE OF THE SCHOOL

We are confident we offer an unparalleled level of support, thanks to our small size and to the close relationship we have with our students. We can help posting or receiving packages, reviewing Japanese resumes, booking transports and accommodations, making travel plans, opening a bank account and more. Being away from home can be scary, but we are here to make sure that it is not!

SERVICES FOR MINORS

- Airport pickup: Upon request, a representative from the school can be waiting at the airport to pick the student up and take them to their accommodation (extra charge applies).
- Weekly reports: For parents who require it, we provide weekly updates on student progress. These include information on academic achievement, interactions with the host family; activities that week and our observations.
- Japan is extremely safe, and that holds true for kids and teenagers, many of whom are using the trains and metro on their own. To make it even better, Genki JACS students under 16 all receive extra counseling and support from the school staff.
- Emergency contact numbers: We offer a 24-hour line that can be used by the student or parents calling from overseas.

Home stay

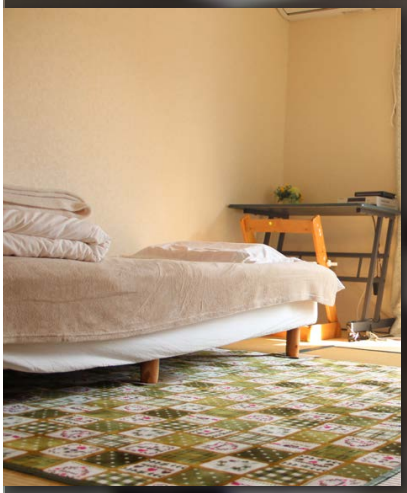
The opportunity to stay with a Japanese host family is the best way to immerse yourself in the culture and practice at "home" what you learned at school that day. We take into account your needs or preferences when arranging a host family for you. Your host family members are likely to be the people you become closest to during your stay, which is why we are extremely thorough when looking through all host family applicants, ensuring that they can provide a suitable environment to assist your learning and to allow you to experience Japan fully. You will have a private bedroom, but share the central facilities such as kitchen, bathroom and laundry with the apartment owners or the family. Available to students of all ages!



Guest house

A private room in a shared house with other GenkiJACS students and Japanese residents or university students, gives you the freedom to enjoy the city life, but also the chance to make lots of friends. We offer many guest houses dotted around the city in a variety of locations. Some are mixed-gender, some male or female students only. Guest houses are perfect for university students or young adults on a budget. Any student over the age of 18 can stay at a guest house.

Supervised Residence (Fukuoka only)

Our Supervised Residence is the perfect way for our younger students to experience a bit of independence while still being looked after. Breakfasts and dinners can be added so you have one less thing to worry about! You will have a private room but shared bathrooms and laundry facilities with other GenkiJACS students and some local Japanese students as well! Our Supervised Residence is perfect for students under the age of 18!

Private Apartment

Private one-room apartments are similar to a hotel room in quality, but much more spacious! They include a bed, living area; kitchen area, bathroom and all amenities needed for a simple life. Most private apartments are very centrally located and in Fukuoka, they are within easy walking distance of our school. Students over the age of 18 are welcome to stay in a private apartment.

FUKUOKA

Fukuoka was ranked the best city in Asia by Asiaweek magazine several times over, was chosen by Newsweek as one of the world's top 10 boomtowns, and has been ranked multiple times by Monocle Magazine as one of the most liveable cities in the world. Fukuoka is the capital of Fukuoka Prefecture and has a population of about 1.5 million people.

TOKYO

Tokyo does not need much introduction. It offers the best of the modern Japanese culture, an incredible range of entertainment choices not to mention places to visit: Tokyo Sky Tree, Akihabara, Harajuku and of course Shinjuku to name a few.
The population of Tokyo metropolis currently stands at around 39 million people, making it the biggest urban zone in the world.

KYOTO

Though no longer the capital of Japan, it remains her heart. Buddhist temples, Shinto Shrines, castles and gardens: to name all of them would take quite some time. Kyoto continues to be one of the best-preserved cities in the whole of Japan, which makes it a great destination if your goal is to touch the history of Japan.

NAGOYA

Nagoya is the 4th largest city of Japan after Tokyo and Osaka, located in the centre of Aichi prefecture, full of history. Birthplace of Toyota Motors, Nagoya is one of the nation's major manufacturing centers. With a great nightlife, lots of really good restaurants, and too many places to visit, you're sure to have a great time in Nagoya.
