# About the Programme

## Active English

The Dubliner programme offers young learners the opportunity to activate and develop their English language abilities. There simply is no better way to develop English language skills than in an environment that requires them to think, speak and eventually - dream English.

## Safety Matters

For parents, nothing is as important as knowing their child is safe and secure. We wholeheartedly understand and that is why all activities and excursions for students are carefully designed, individually risk assessed and health & safety checks are being carried out regularly. We have caring staff, available 24-hours a day to help students.

## Personal Development

The Dubliner programme enables students to separate from their daily routine, to have space to be themselves and to develop independence and confidence. Our programme is designed to stimulate the students to think, imagine and unleash their creative powers.

## Academic Quality

Our English studies curriculum is developed by our highly qualified Academic team of English language experts with years of experience. All teachers hold suitable qualifications to teach English as a foreign language to students of all ages and all centre staff undergo regular training.

## Our Team

Our staff are passionate about delivering a stimulating, supportive and motivating environment for our students in which they can work on their personal development and confidence as well as improve their English.
