Our highly structured curriculum, comprised of 32 morning and afternoon lessons a week (total tuition time of 21 hours and 20 minutes), will have you speaking and writing with confidence in no time. Our general language lessons build your grammar and vocabulary through a combination of digital learning and classroom-based lessons, thanks to our innovative EF Campus Learning platform. Project Sessions will help you further improve your research and communication skills through practical work tailored to your interests.

Our most popular course

Our Intensive Course offers the maximum number of Special Interest Lessons, to ensure you successfully achieve your goals while studying abroad. Taught both in class and online, you can take SPIN Lessons focused on language skills, professional development, exam or university preparation or culture and arts.

Why EF Intensive is our most popular course

Because not only do you maximize the amount that your language skills improve, you also gain valuable time to practice with fellow students. This extra interaction enables you to communicate in a natural way, faster than on other courses, and in the process form lasting friendships.

Choosing your course length

The longer you study, the more you will improve, guaranteed. That's why students seeking advanced language skills enroll for a minimum of 4 to 6 weeks. A 6-week course allows most students to advance one full level of ability, and many intensive students choose to achieve greater fluency with courses of 3 months or more.
