WELCOME

English Outdoors is an original concept combining English & Tourism into one unique experience. English Outdoors utilizes “Public Space” and excursions across the city to help you improve your English fluency while exploring all that NYC & Toronto have to offer.

English Outdoors is the only English program **outside of the traditional classroom.**

This concept is specifically designed to fully immerse you in city life and culture, giving you the unique opportunity to practice your English in authentic settings and live like a local!

Classes are primarily taught in public places all over the city to combine sightseeing and studying. Instead of being in the same classroom every day, you learn in both iconic spots and the city's best hidden gems. In New York that can be Bryant Park, Dumbo, Industry City, Pier 57, Madison Square Park, to name a few... In Toronto you will get to experience Queens Park, Centre Island, Eaton Centre, St Lawrence Market and more...

We have a range of locations both indoors and outdoors, providing plenty of variety, a key feature of our concept, so that you get the most out of your trip. Our locations have been carefully chosen based on comfort, space, ease of access, places of interest close by, proximity of public restrooms, etc.

This interactive classroom experience gives you the chance to immerse yourself in real world scenarios. By discovering a multitude of locations and off the beaten path spots, you multiply the opportunities to practice English in authentic situations, gain confidence and improve your fluency.

ENGLISH OUTDOORS PROGRAMS INCLUDE:

- ✓ **NYC:** Adult sessions from March to December (17+)
- ✓ **NYC:** Tailor-made closed groups / school groups year-round
- ✓ **NYC & Toronto:** Teen summer camps (14-17 years old)
- ✓ **NYC & Toronto:** Young adults summer camps (18-22 years old)

We specialize in creating immersive experiences, and we primarily focus on speaking and fluency practice.

Fluency is the ability to speak smoothly, confidently, and without unnecessary pauses or hesitations, even if some mistakes occur. This is opposed to accuracy which is the correctness and precision of language use, encompassing proper grammar, vocabulary, and pronunciation.

At English Outdoors, we prioritize fluency over accuracy. We want you to speak as much as possible, build confidence, and speak English more like a native! Being able to speak confidently and fluidly is just as important as grammar and vocabulary. We don't ignore accuracy all together: our Language Guides incorporate error correction and tailored language practice every week to help you see noticeable improvement even after just 1 week.

Our English experiences are ideal for free-spirited, independent, and adventurous travelers who are looking for a unique combination of English and tourism. Immerse yourself in the life and culture of the city through our innovative experiences and combine language and tourism into one unique vacation. There is no better way to practice your English while exploring all that NYC & Toronto have to offer!
