1 Welcome letter from our director

In the connected world we live in, time has become our most precious resource. Work, family, and travel become choices within the abundance-based system that characterizes our time.

Taking the time to learn a new language or to improve yourself is a courageous decision. It requires commitment and a certain amount of humility in a world that expects each of us to be efficient, professional and responsive. Ultimately, it is our personal priorities and accomplishments that make the difference.

I am truly impressed by those who make this decision in their lives. They take risks: learning is accepting to make mistakes, and to learn from them. It takes courage to accept to fall in order to get up again. FAYLI students all share this same determination and commitment to learning. Congratulations to all our students and future students. Your persistence and your will to always will be the key to your academic and personal success.

02 A flexible learning environment. You can take your lessons wherever you want: in our classrooms, at the office, at home or outside.

03 Tailored lessons. Choose the best time in your schedule for your lessons: early morning, lunchtime, late evening, weekends and even holidays - it's up to you!

04 A learning method adapted to you. No textbooks here. Our learning methods and their content are constantly adapted to your assimilation abilities.

05 A course adapted to your objectives. Whether you are a student who wants to speak to French teachers, a parent who wants to communicate with their child's French school, or a professional who wants to master the technical vocabulary of their field, we will help you speak with confidence and assurance.

06 A community of language students. You can ask for supervised homework and help from our staff and your fellow students on campus in the afternoon.

07 Online assistance. We guarantee online access to your schedule, French tests, teacher's notes and lesson reminders by email.

08 Assistance with your external affairs. Our team can help you find the services you need, whether it is accommodation, room rental or an affordable hotel.

3 Methodology & Syllabus

Our teaching method has been designed to establish a true theoretical strategy but also an effective practice. Each course is specially designed around your specific needs and language objectives.

We help students apply their knowledge in real-world situations. The tutor leads and facilitates learning by creating real-world exercises and activities within the framework of your needs. This encourages you to think in French, and offers you the opportunity to approach a more intellectual form of the language, as well as cultural, creative, emotional, social and even physical.

15 Our policy

Additional costs: your personalized lesson program includes additional travel time for the teacher if he/she has to come to your meeting, as well as transportation costs. When our teachers give lessons outside of Paris, they usually choose free public places (market, museum, exhibition, store, café, garden...). We will ask you to pay for any additional costs that may arise: drinks, paid visits... Students' expenses for the teacher should not exceed 5€ for a drink or for a paid entrance.

Course materials: Your teacher will bring the necessary textbooks. We suggest that you bring your own note-taking materials.

Planning your lesson: You can plan your lesson directly with your teacher. If you need to reschedule a lesson, you can do so free of charge 24 hours in advance. Otherwise, the lesson will be due.

Group classes: If we are unable to find a group that matches your level in the small group or evening classes, your lesson will become a 1.5 hour individual lesson, with the other half of the course being individual work on campus. We can also offer a refund. If you are unable to attend a class during your school week, your teacher will have you work on your own to make up the missed lesson.

Leaving Paris: If you leave Paris before the end of your program, you can keep your credits and reorganize them in the year following your first lesson. You can also take your lessons online, via Skype for example, or transfer your credits to someone of your choice.

Punctuality: If your teacher is delayed by public transportation and arrives late for a lesson, the lost time will be added to the end of the lesson or the next one. Our teachers will wait for you for 20 minutes from the scheduled time. If you have not arrived after this time, the lesson will be cancelled and no refund will be given.

Payment: We ask you to pay 50% of the price of the lessons when you book (before the scheduled date of the course) and the rest is due on the fourth lesson. If you have booked less than 5 lessons, we ask you to pay the full price directly. After making the first deposit, we will book a teacher for you and you will receive a confirmation by email.
