Immerse Education Pathways

Your journey starts here. Globally we offer hundreds of programmes across a range of inspiring pathways to support students in deciding on their academic and career prospects. Learn more about our pathways delivered online or at world-leading universities.

The pathway for this guide:

Academic Pathway

University-level enrichment programmes, led by expert academic tutors, for students building their knowledge to excel at school and beyond.

Career Pathway

Immersive industry-focused programmes, led by highly esteemed professionals, for students deciding on their career paths.

Skills Pathway

Future-ready skills programmes for students looking to upskill, develop projects and stand out from the crowd.

We provide **transformative educational pathways**, building bridges to the future by empowering and equipping students with the knowledge and skills to navigate their own success.

Our pathway locations:

Online, Cambridge, New York, Oxford, Toronto, San Francisco, Sydney

What is Academic Insights?

Our Summer School in Toronto is a unique opportunity for you to live and study in the highest ranked university in Canada.

Our 'flagship' summer programme, Academic Insights provides ambitious high- school students from around the world with an unrivalled experience studying undergraduate-level subjects at the University of Toronto.

By enrolling in this programme, you'll benefit from expert teaching, blended with admissions sessions and essential skill development. Each subject follows a specifically-designed summer school syllabus combining theoretical knowledge with practical application.

KEY FACTS:

- ✓ Ages 16-18
- ✓ Our 'flagship' programme also taught in Oxford, Cambridge & Sydney
- ✓ University of Toronto Accommodation
- ✓ 45 hours of tuition (over 2 weeks)
- ✓ Maximum class size of 10
- ✓ 1:1 tutorials with expert tutors
- ✓ Completion of a personal project
- ✓ Teaching combines theory and practical learning
- ✓ 12 months of post-programme support
- ✓ Social and cultural programme to explore Toronto
- ✓ Individual end-of-course feedback
- ✓ Lifetime access to the Immerse Alumni Network

“ The classes were the most beneficial because they allowed me to make connections to reality and understand how I could use the information I was learning to improve my performance at school back home.

Hana
2023 Participant

Available Subjects in Toronto

Our world-leading University of Toronto tutors will support students in forming a strong foundational knowledge, understanding and skillset within their field of interest. Students will uncover their academic potential, choosing from the below subjects:

Business Management

Participants gain a fascinating insight into a broad array of business management and finance topics in our University of Toronto summer school.

Toronto is home to some of the world's most exciting start-ups and entrepreneurs, explore the challenges they have overcome with incredible guest speakers and industry excursions across the city.

Topics include organisational behaviour and the management of organisations, as well as finance, strategy, marketing, and leadership.

Computer Science & AI

Unveil the mystery of coding, algorithms, and artificial intelligence in a dynamic and engaging environment at the University of Toronto. From designing your apps to understanding the core of AI, you'll gain practical skills to help your computer science knowledge stand out in university applications.

Join us in a collaborative space where curiosity thrives and technology transforms, making your summer both instructive and unforgettable.

Engineering

Students will be introduced to the engineering topics that form the foundation of an engineering degree. developing new skills as you work through a carefully constructed syllabus.

You'll develop both theoretical and practical understanding through an exciting syllabus that takes into consideration the role of innovation and technology in the engineering of the future.

Medicine

Explore the world of epigenetics, and consider the rapid advances being made in modern medical technology in Australia and around the world.

Our summer school participants will gain an introduction to a range of aspects of Medicine, from anatomy to biology and medical technologies and medicines changing the world.

Programme Highlights

1:1 Tutorials & Feedback

Participants receive weekly 1:1 tutorials with their class tutor. These are designed to ensure that each individual is progressing as desired and that students can receive additional academic support in a private setting. With the support of expert academic tutors, all participants will receive tailored feedback for successful delivery of their personal project.

Expert Tutors

Our tutors care about the academic futures of each participant. Each subject's syllabus is designed and taught by expert academics from top universities such as Cambridge and Oxford. Content is designed to introduce participants to university-level subject matter and inspire them to continue their studies after completion.

Experiential Learning

One of the most popular aspects of the course is the opportunity to receive hands-on, practical experience in a chosen subject area. Examples include dissections in medicine, robotic arm building in engineering or mock conference presentations in business management.

Activities & Excursions

We pride ourselves on a rich and immersive social programme which allows participants to make friends with like-minded peers from around the world. In Toronto, students will explore the iconic sites that the city has to offer, such as the CN Tower, Niagara Falls and the Royal Ontario Museum while forging life-time networks with peers and mentors leading the excursions.

Personalised Evaluation & Certificate

Our tutors are passionate about the academic development of their students and therefore provide individualised written feedback and reflections after the programme. This provides insight into a participant’s strengths, areas for further exploration, and recommended reading to further their academic curiosity. Each participant will also receive a certificate of completion.

Post-Programme Learning

Continue engaging with exclusive university-level content from highly-esteemed educators, including Oxbridge and Ivy League academics. For 12 months after your programme you will build on your understanding of your chosen subject. This will support help you in developing skills to stand out at school, in university admissions and in higher education studies.

Accommodation

Our Toronto Academic Insights programmes will be held at St. George Campus. This campus is the main and largest campus of the University of Toronto and is located in downtown Toronto.

The campus blends historical architecture and inviting green spaces. Just beyond the campus are many iconic landmarks and sights to visit, including the harbour, CN tower, and museums.

With its stunning architecture, renowned faculty, and diverse student body, it's a place where knowledge thrives, ideas blossom, and lifelong friendships are forged.

Participants stay in comfortable single bedrooms with access to common rooms and event spaces for our social and cultural programme.

Males and females have separate accommodation, and there is wi-fi available throughout.

Student Perspectives

97% of Alumni
Surveyed Agree That Our
Programmes Have Had A
Positive Impact On Their
Academic Performance
At School

I see a huge improvement in my overall English speaking skills, since it is a 2nd language for me. I am able to speak more fluently and my vocabulary has widened. People around me - both tutors and peers - have noticed and praised this improvement. - **Tal, Student**

I took the business management course at Immerse before I began my business subject at school, it gave me a greater head-start and allowed me to more deeply understand the topics covered. - **Olivia, Student**

The programme provided me with an insight of what my future could look like, which motivated me extremely. This resulted in me getting only A's and A*'s in my GCSEs. - **Tem, Student**

My English Literature grades went from a B to an A. - **Malek, Student**

Pastoral Care & Safeguarding

We pay exceptionally special attention to the safety and well-being of our participants, and communicate a code of conduct to participants before and during programmes consistently.

All participants on an Immerse programme are also assigned to a “Mentor Family” – a group of 10 students who are led by an Immerse Education Mentor, who also lives on-site. This small group per mentor ensures that individualised attention and guidance per student is still provided.

Mentors, who are undergraduate students at the host university from each city, offer support and friendship to all participants. They truly understand the challenges and pressures that participants face and are happy to share their own advice and experience. It’s an unrivalled support system that we’re incredibly proud of.

I chose to focus on public policy as it relates to my research project which is all about the connections between China, Russia and North Korea. Toronto is an amazing city, the weather is amazing and it's very fun. The Royal Ontario Museum was amazing, there were so many dinosaurs to view!
