The charm of Shibuya Campus

Japanese language × Business

We are one of the few Japanese language schools in Japan that specializes in supporting students to find a job or start a business in Japan. We focus on career support by improving business Japanese language skills and business skills at the same time.

Cultural Mecca + The Center of Business

Shibuya is not only a place of fashion, art, and gourmet food, but also a hub of IT and business, including the headquarters of Google Japan. As an area where you can enjoy the “cutting edge” of Japan, it is an attractive and trendy place to be.

Business Partnerships

ISI Group has over 280 international students who have found employment in Japan every year. We provide information on internships and job fairs in a variety of industries through our long-accumulated know-how and corporate partnerships.

“Career Japanese” program specialized in career support

Spring 2023 will see the birth of the Shibuya Campus, the 6th ISI Japanese language school, and the launch of the “Career Japanese” program in Shibuya, specializing in career support for job-seekers, incorporating the ISI Group’s long-accumulated know-how in Japanese language education and job placement support!

<This program is designed for individuals who wish to improve their professional Japanese language skills with the goal of contributing to organizations and society in Japan.>

POINT 1 Sharpen your 3 skills in the Career Japanese Program!

Japanese

Using ISI’s original method, students will learn Kanji, grammar, reading comprehension, etc. with a focus on conversation from the beginner level in a well-balanced manner. Students will improve their overall Japanese language skills and acquire the ability to communicate and express themselves in Japanese.

Business

Learn the skills needed in various business situations such as answering phone calls, writing emails, meetings, business negotiations, presentations, and so on. We will provide thorough guidance to help you win a job offer.

Social

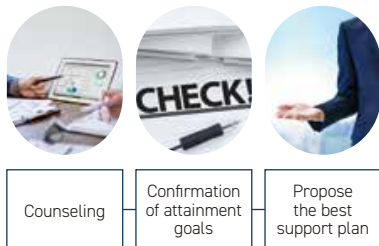

By forming groups with different levels of Japanese and engaging in “task activities (cooperative learning)” to be accomplished through cooperation,” students will gain an understanding of different cultures and multiculturalism, along with social skills and decision-making abilities.

POINT 2 Three reasons why we can deliver results

Tailor-made career support

As soon as you enter the school, we will make an employment plan for you based on your Japanese language skills required for the job you want and working backwards from your graduation schedule. Here is a support plan “only for you”.

Custom-made Image

Personal advisor system for your peace of mind

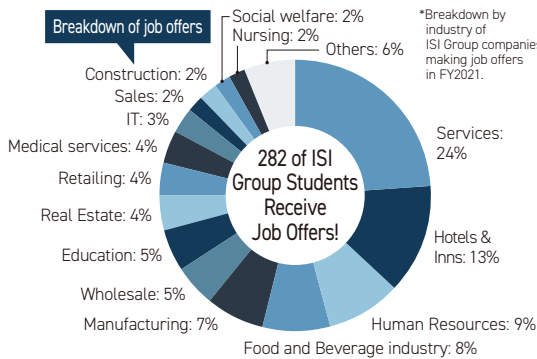

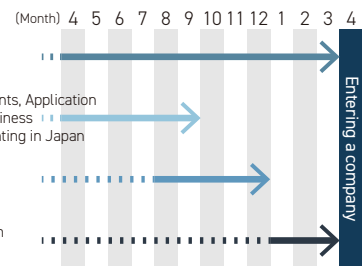

All students are assigned a dedicated career advisor who will accompany them on the path to employment. The “peace of mind” that comes from knowing that you can consult with us anytime you need help leads to better results.

Career Roadmap

Acquire Japanese language skills	JLPT/BJT Exam Preparation, Business Japanese, Project Work, etc.
Job hunting preparation	Corporate culture, How to write documents, Application screening process, Interviews tests, Business manners, etc... Knowledge about job hunting in Japan
Job hunting activities	Application, interview, screening, job search, and participation in company information sessions, etc.
Job offer - Entry preparation	Job Offer - Entry Preparation, application for change of status of residence, etc.

One-stop Services

The most familiar class teachers and the Career Center at ISI Headquarters will support students in their job hunting activities. ISI’s strength is its one-stop job placement support without relying on outside vendors.

Student Message

Ben Kopf <U.S.A.> Amazon Japan, LLC.

It was my dream to work in Japan, and I decided to enroll in this school because it offered support for finding a job and a good study of business Japanese and keigo (honorific language). At the school, I had many interview practices in Japanese with the teachers, and there was excellent support for my resume. In class, we had to give presentations in front of our classmates, and I think that each time I gave a presentation, I gained more confidence, which was a plus for my job hunting activities. In the future, I would like to do business analysis consulting for Japanese and U.S. companies.
