you can not learn
only by reading...**

**Spanish in Latinamerica
Live it, master it!**

SKILLS IMPROVEMENT PROGRAM FOR SPANISH TEACHERS

Program description:

During the summer months from June to August we offer Spanish for Teachers. This program is ideal for Spanish teachers who would like to perfect their language skills while learning more about Andean Indigenous Cultures or Latin American Literature.

The Spanish for Teachers course is offered during the same time as our Teen Program. If you accompany your students, you can attend your course while the students participate in their own classes.

Spanish for Teachers consists of 20 hours of class per week in a small group of teachers, from Monday to Friday. The first week is dedicated to refining language skills. The second week you choose between a course of specialization in Andean Indigenous Cultures or in Latin America Literature, depending on your personal interests and preferences. The well qualified professors will help you gain a deeper insight into these areas of the Spanish language.

Afternoon activities are arranged in conjunction with the Teen Program, enabling you and your students get to know Quito and its surroundings together. We organize fun activities and visits to tourist attractions such as local markets, the Cathedral and the Equator. Local students accompany the group allowing both you and your students to practise the Spanish language in everyday situations. On the weekends we take you on fully organized excursions to places such as Cotopaxi National Park, the Cloud Forest, and the Otavalo Indigenous Market. On all excursions and activities you and your students are accompanied by a local guide and a representative of the school.

Accommodation is provided with local host families so you get fully immersed in the Spanish language while getting to know our culture and our incredibly warm-hearted people.

This is a unique opportunity to make friends for a lifetime from all over the world!
