# All about our program: Natural Learning & Communicative program

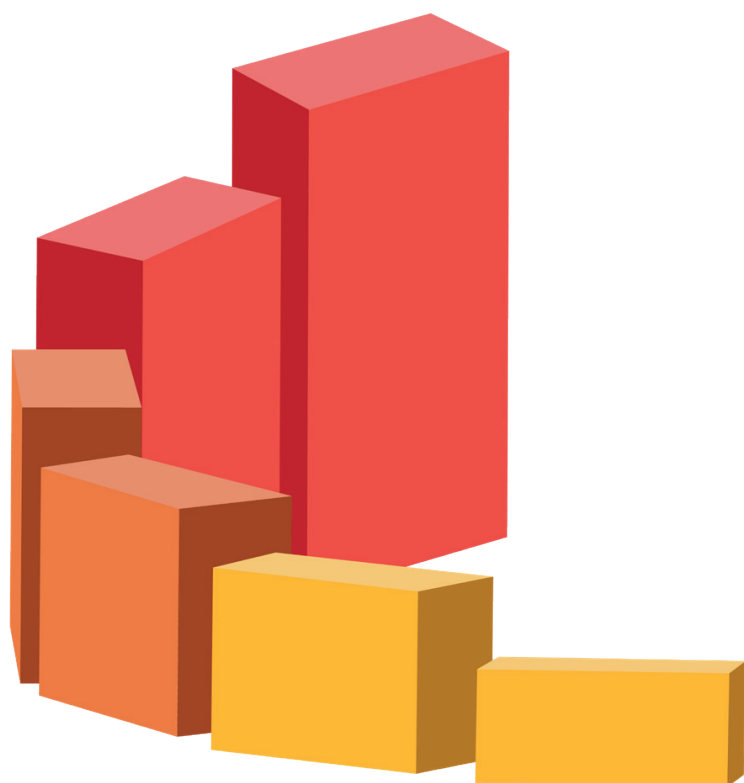

At NL College, we believe in doing things differently.  
Our program is exclusive and unique, based on a more  
natural approach

Unlike traditional methods, we follow a more immersive approach that follows the way we learn our mother tongue.

Our program encourages students to think in Spanish from day one, rather than translating from their native language. We believe in quick assimilation, agility, and fluidity, helping students gain confidence to communicate both

in and outside the classroom. Our exclusive program enables students to progress through different courses and levels, empowering them to achieve their personal learning goals.

We encourage learning by doing, and our methodology is centered around the student as the protagonist. At NL College, we believe in action-based learning, motivating students to develop their language skills to the fullest.

# Extra Activities

**Our schools offer much more than courses, we offer the whole experience**

At our institution, we prioritize a comprehensive approach to language learning. In addition to our standard weekly classes, we offer complimentary extracurricular sessions to our students. This additional time proves invaluable in enhancing their proficiency in English. Moreover, we firmly believe that acquiring a new language goes beyond the classroom. It involves delving deep into the culture, experi-

encing local customs and traditions, as well as interacting with people from all over the world.

That's why we have a dynamic programme of activities beyond the school premises. This includes visits to historical and cultural centers, trips, art centers, and participation in regional events in each country. ▲

- **Activities related to the learning process itself**
- **Extra classes covering conversation, pronunciation, grammar and other specific topics**
- **Activities, excursions and trips**
- **Monthly schedule**

# What our students say about us

→ **Jialu Tan** ★★★★★

I don't usually leave reviews, but my teacher helped me a lot, I didn't have a basic knowledge of Spanish and I was afraid I wouldn't understand it before I came. I couldn't understand the lessons at the beginning, but the teacher tried to help me with various drawings, pictures, and even a translator. I thought it would be easier to learn with a teacher from my own country at the beginning, but I chose NL College to learn more authentic pronunciation from a local teacher.

→ **Francisco R** ★★★★★

The treatment of the staff, from my sales agent to the reception and my teachers, is excellent! The infrastructure is very good too! Spacious and comfortable classrooms. And the student lounge is large and cosy.

→ **Marjin H** ★★★★★

I have just started my 5th month of Spanish at NL College and can definitely recommend it. Small classes, interactive and varied programs, knowledgeable teachers, and great service. Special shout-out to my teacher for the great classes and my agent for being super attentive and accommodating. An extra plus for their social activities.

→ **Mohamed Z** ★★★★★

I'm a student at NL College Madrid. I want to thank the kind person who has helped me since the first day I arrived in Spain. They've helping me with absolutely everything to move forward with my courses and even with paperwork and things outside of academics. Thank you very much. I hope I can repay you and give back to you even if it's just a little.
