OUR TRAININGS

The entire training program is adapted to people's needs, style of learning, and areas of interest. We can mix language learning with playing a sport, by doing a creative activity like painting, or learning a new skill like tv presenting. Students are free to learn and be themselves while enjoying the moment and really living the language by having a good time.

OUR METHOD

The Inspire Academy focuses on teaching in a fun and positive atmosphere. We also offer enriching outdoor courses and activities. Learning is more motivating when you experience real-life situations. Sharing and being close to the students is essential to us.

PROFESSIONAL TRAININGS

Learning a language can help us move forward in our career. The reason people learn a language is to be able to communicate freely and effectively with others, thereby strengthening relationships, broadening professional opportunities, and allowing more opportunities for growth.

The Inspire Academy works with professionals individually or in groups, and also provides in person workshops and online trainings.

We also provide 'in company' interventions for both individual and group trainings.
